

Shark Tank Investment Report

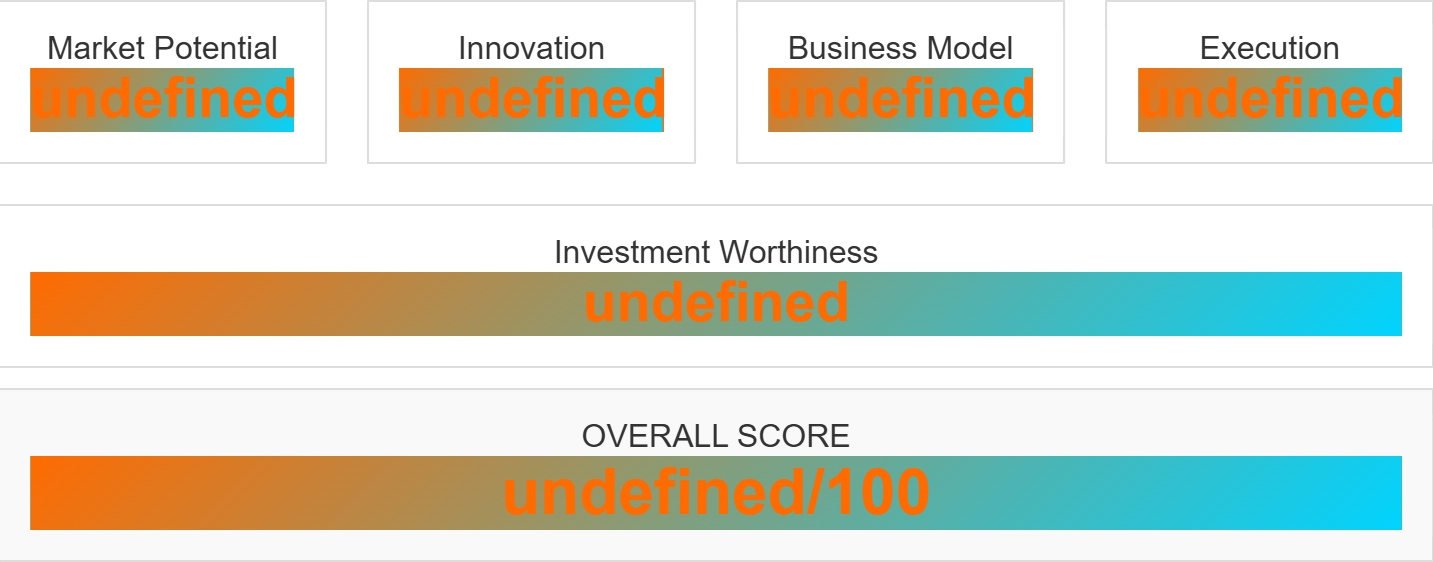

Startup Information

Name: School Work Flow AI
Funding Ask: ₹50 Lakhs
Revenue Model: We offer a subscription-based model, charging schools per student or per institution annually.
Target Audience: Our primary customers are private and public schools that want to digitize and optimize their administrative workflows.

Problem & Solution

Problem:
Schools face inefficiencies due to manual administrative tasks like attendance, scheduling, and fee collection.
Solution:
School Workflow AI is an automated platform that streamlines these processes, saving time for teachers and staff.
